2019 – 2022

Faizabad, Uttar Pradesh

PROJECTS

Zerodha | *MongoDB, Express.js, React.js, Node.js*

Jul 2025 - Aug 2025

- A full-stack Zerodha-inspired trading platform built using the MERN stack (MongoDB, Express.js, React.js, Node.js). This project replicates core features of Zerodha such as user authentication, stock listing, order placement, portfolio tracking, and dashboard analytics with a modern, responsive UI.
- Implemented secure authentication, dynamic management, and result evaluation with an intuitive and user-friendly interface.

Virtual Assistant | MERN Stack

Apr 2025 - Jun 2025

- Developed a Virtual Assistant web application using the MERN stack that helps users perform every day tasks through an AI-powered conversational interface
- The assistant can handle tasks like answering queries, setting reminders, managing notes, fetching realtime information and integrating with APIs for personalized responses

INTERNSHIP

MERN Stack Intern | Maurya Technical Pvt. Limited

01 Jun 2025 - 15 Aug 2025

- Gained practical experience with the MERN stack using HTML, CSS, JavaScript, Bootstrap, Tailwind, and SQL.
- Worked on projects like Zerodha (full-stack-inspired trading platform), Employee Dashboard, and Goal Tracker.
- Developed clone projects (Amazon, Scanner Application, Virtual Assistant, etc.) using front-end technologies.
- Improved skills in frontend-backend integration, database handling, and UI development.
